

**REMARKS**

Claims 6, 15 and 19 are amended to be consistent with the specification. It is apparent, the stored file data does not necessarily contain titles (although the stored file data may contain titles). Rather the stored file data contains information that, in turn, corresponds to the titles that are displayed. See page 7, first two paragraphs and page 8, line 20 to page 9, line 21 of the present specification. Thus, no new matter is added to claims 6, 15 and 19 by this amendment.

Claim 11 is amended to correct its preamble. Claim 11 depends from claim 6 which is directed to "a data processing *device*." Claim 11 inadvertently erroneously refers to the data processing *system* of claim 6. This amendment corrects the preamble of claim 11 to be consistent with the claim from which claim 11 depends.

Since the present amendment is submitted for consistency and does not present new matter, the entry of this amendment under 37 CFR 1.312 is respectfully solicited.

Respectfully submitted,  
FROMMER LAWRENCE & HAUG LLP
